

ANNEX 4.1 WHY e-Lesson?

- Added value of increasing ICT skills
- More attractive to students
- Most student have already experienced failure with traditional methods
- e-lessons can be more dynamic and interactive

Decisions

- Students could decide how they wish to work the material
- A) Traditional method -vs- B) e-lesson
- Students choose the method
- As some students will choose different methods give the students the same evaluation and questionnaires to gauge and measure the differences noted by the students and compare the evaluation results.

How to give an e-lesson

- Take a traditional lesson plan and transfer the contents to digital formats.
- Find platforms that allow you to upload tasks and media to be shared with students (moodle, SWAD etc.).
- A useful list of digital formats and applications can be found at <https://webcompendium.promovet-project.eu/>.
